About CRREO

CRREO conducts and publicizes research on regional topics; creation/direction of select institutes that focus on specific topics of regional interest; outreach to local governments, non-profits and for-profit organizations to initiate reforms and enhancements to best service their constituents; work to foster community collaboration.

One key aspect of CRREO's mission is to bring key regional concerns to the attention of citizens and policymakers to support their informed discussion of the public policy problems facing the Hudson Valley. Quality information will help us to work together to develop our own, local solutions and advance the need for changes at the state level.

Dr. Gerald Benjamin
