Director Bordino discussed the five year plan that the Recreation Committee is committed to developing and submitting to the Town Board. Further discussion by the group entailed Outreach to all the Youth/Adult Sports Organizations and Arts Groups for their related input involving the five year plan. Committee Member Hokanson had begun work on a survey for each organization to help the process along. The Committee worked on a final version of said survey to be completed by the next Committee Meeting.

The Committee addressed releasing parkland funds for treating the water and constructing a Fire Wall inside the Maintenance Building at the Field of Dreams Park.

The water treatment system will allow the public to drink the water and establish drinking fountains on the outside of the Maintenance building. The fire wall safely separates the maintenance building from the concession area. Approximate costs for the projects, Fire Wall, \$2000, Water Treatment System, \$6-7000. Hokanson motioned the projects be voted on by the Committee, second by Harrington and then unanimously carried. Bordino to forward the request to the Supervisor's office for Board consideration and approval.

The Committee discussed establishing a weeknight for future meetings, all agreed Mondays, first or second of each month, would be best suited for all, Wayne Pyle can no longer do Tuesdays. Time established will be 6:30, first or second Monday, to be determined after Pyle is contacted.

The sole rate change in 2019 was explained by Bordino, individuals, groups, offering free services or programs, will not incur a rental charge in 2019.

All other rates at the Community Center and Parks will remain the same in 2019.
