Dear Senator Bonacic,

Thank you for offering us the opportunity to apply for the State and Municipal Facilities Capital Program.

The Town government is working closely with the New Paltz Fire Company and New Paltz Rescue Squad to create a consolidated Emergency Operations/Government Center.

The New Paltz Town Hall is an extremely old building with very serious health and safety issues.

The Justice Court is also an extremely unsafe building. A number of years ago, the Town Police were moved out of the building because of the unsafe conditions. The Police are now located in rental space located on South Putt Corners Road. This was a temporary move and the Town is paying rent to house our New Paltz Police. This also left a very unsafe situation for the Justice Court personnel who no longer have the protection of the Police while court is in session and after when the court clerks are leaving the building.

The experience of the past storms has exposed the inefficiency of housing the emergency providers in separate buildings. The agencies have found that in an emergency, coordination of services for Police, Fire and Ambulance are facilitated by direct communication of operational officers. Being able to assemble all of the services in one building, having all the equipment on hand, and having face-to face interactions would allow the agencies involved to coordinate their responses in a safe, efficient and practical manner, as stated in the attached letter of support from the New Paltz Rescue Squad.

The Town Board has taken the lead in creating a combined EOC/ Government Center. This building would combine Town Government operations including the Justice Courts, Police, Community Center as well as the Fire Company and Rescue Squad.

We have the opportunity for two locations. The first one is on land owned by the Fire Company. This is located on the corner of Henry W. Dubois Drive and North Putt Corners Road. This site is the preferred location of the emergency service providers due to the accessibility of the roads to every location in New Paltz.

The Fire Company hired an architect years ago and spent approximately \$50,000 to have plans drawn up for a new Fire Station. We have met with all the partners to assess the plans, identify our estimated space needs and the environmental viability of the location.

We believe that using the floor plan developed we can add on two stories and reconfigure the space to accommodate all of the needs of the partners.

There is also the possibility of buying the C2G building, located on South Putt Corners Road where the Town has already invested approximately \$500,000 in renovations to accommodate the town police. The building has very large empty space that can be converted into a combined Justice/ Town Board meeting room. The office space used by C2G would accommodate the Town Hall staff with very little need for modifications. The Rescue Squad and Fire Company space could be added on.

The owner of C2G building would like to sell as the building is too large for his business needs. He also owns another parcel on South Putt Corners and would construct a building at that location to meet his needs.

The Town would sell its present location, which has considerable value as it is located in the B3 district of the Village and has water and sewer. The sale of this building would be used for the EOC/Government Center. There would also be funds available from the Fire Company and the Rescue Squad.

The Town is also hoping to use the promised NY Rising money towards this building and intends to apply for the upcoming HUD DR grant.

The New Paltz Town Board understands the serious nature of the health and safety deficiencies of our existing municipal buildings as well the importance of effective emergency service delivery and is committed to bonding the remaining cost for the project.

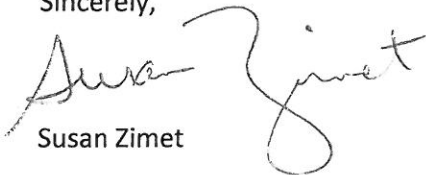

We also believe that with the proximity to the N Y State Thruway, this EOC/Government Center would also act as a Southern Ulster County EOC in an emergency situation.

We are requesting \$100,000 for the planning and programming of this project. The funds would be allocated for the purposes of working with an architect to better assess the space /programming needs of the partners for now and the future with the goal of developing preliminary building plans for both sites. After a thorough assessment, we would then choose the location and move to implement the building plan at the selected site.

Included with this letter are the original plans for the Fire station 2 site, estimates for the cost of the building by our engineer and letters of support from the emergency providers.

If you need anything else, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Susan Zimet". The signature is written in black ink and is positioned to the right of the typed name.

Susan Zimet

NEW PALTZ POLICE DEPARTMENT

83 South Putt Corners Road, Suite 1, New Paltz, New York 12561

June 13, 2014

Supervisor Susan Zimet
New Paltz Town Hall
1 Veterans Drive
New Paltz, New York 12561

Dear Supervisor Zimet,

I am writing to express our agency's support for the town's plan to construct an Emergency Operations Center to better address the public safety needs of the New Paltz Community.

The creation of an Emergency Operations Center (EOC) to house the New Paltz Police, Fire, Rescue as well as the Town and Court offices enhances interdepartmental communication and cooperation, provides residents with one location to obtain all of their public safety needs and addresses significant infrastructure and communication issues currently encountered by our emergency providers. During Hurricane Irene department heads needed to leave their respective buildings in order to convene with one another and assess the damage and needs of the community. In the aftermath, citizens were forced to obtain reports and FEMA information from various locations in order to request reimbursement for loss and an antiquated communications center made interdepartmental communication difficult at times.

Our community continues to grow and the need for an EOC has grown with it. In conclusion, we fully support the town's endeavor to obtain external funding and look forward to working with all the involved parties to see the project to fruition.

Sincerely,

Joseph A. Snyder, Chief of Police

NEW PALTZ FIRE DEPARTMENT, Inc.

NEW PALTZ, NEW YORK 12561

June 15, 2014

Susan Zimet
Supervisor, Town of New Paltz
1 Veteran's Drive
New Paltz, New York 12561

Dear Susan,

I am writing this letter to express my support for the planned Emergency Operations Center.

The New Paltz Fire Department is operating under severe space restraints. We have 8 Vehicles and 2 boats. Seven of the Fire Apparatus are housed in 5 bays, 1 Vehicle is located at a private home and the 2 boats are stored in storage sheds.

The New Paltz Fire Department moved into Station 1 in the 1950's. We currently house 4 trucks in 3 bays. Also we only have one bathroom which serves as both a Unisex Restroom.

The office space for both the Line and Social Officer's is totally inadequate.

Station 2 was built in 1980 by the New Paltz Fire Department on land purchased by them. Currently it houses 3 apparatus. The building is a metal building with a Life Span of 30 years.

As you can see, we are very much in need of new facilities.

If you have any further questions, please feel free to contact at (845)883-6127 or (845)417-7048.

Very truly,

William H. DuBois
President
New Paltz, Fire Department

13 June 2014

To Whom It May Concern:

The following is a letter supporting the consolidation of emergency services of the Town of New Paltz into one building.

We have found that in times of emergency, coordination of services such as Police, Fire and Ambulance are facilitated by direct communication of operational officers. Being able to assemble all of the services in one building, having all of the equipment on hand, and having face-to-face interactions will allow the agencies involved to coordinate their responses in a safe, efficient and practical manner.

Real-time communication among officers of each agency will determine where resources should be dispatched and how best to support other agencies.

The New Paltz Rescue Squad fully supports the consolidation of emergency services into one centralized facility.

FIRE STATION 2

From: Dave Clouser [dbsea@dcaengrs.com]
Sent: Saturday, June 14, 2014 9:22 PM
To: 'Victor Cornelius'
Cc: Susan Zimet
Subject: EOC Grant application
Attachments: New Paltz EOC Building.pdf

Hi Victor,

I have the cost estimate completed on the EOC Building, so thought you might like that information this evening.

The building will be a total of 55,000 sq. ft. – 3 stories with a ¼ basement for storage, secure and otherwise --- as long as we are shooting for the stars, everyone is getting the space they want with this building. There will be 100 parking spaces and it will house the courts, the PD, the FD, the Rescue Squad, the Community Center and all of Town Hall Offices. We are budgeting for geothermal heating and cooling and photovoltaic panels on the roof.

The budget breaks down as follows:

1. Construction Costs:

a. Site Prep, parking, walks, utilities, drainage and grading, landscaping and lighting = \$660,000

b. Emergency Services Building – 55,000 sq. ft. plus 7,500 sq. ft. basement storage = \$13,250,000

Subtotal Estimated Construction Cost = \$13,850,000

2. Engineering and Design @10% = \$1,385,000

3. Permitting = \$ 50,000

4. Legal and Financing / Bonding = \$ 300,000

5. Grant Administration = \$ 350,000

Subtotal Project Soft Costs = \$2,085,000

TOTAL ESTIMATED PROJECT COST = \$15,935,000

Please feel free to adjust this budget's soft costs as you see fit.

The latitude and Longitude are 41°-44'-46.5"N and 74° - 03' – 53.4"W

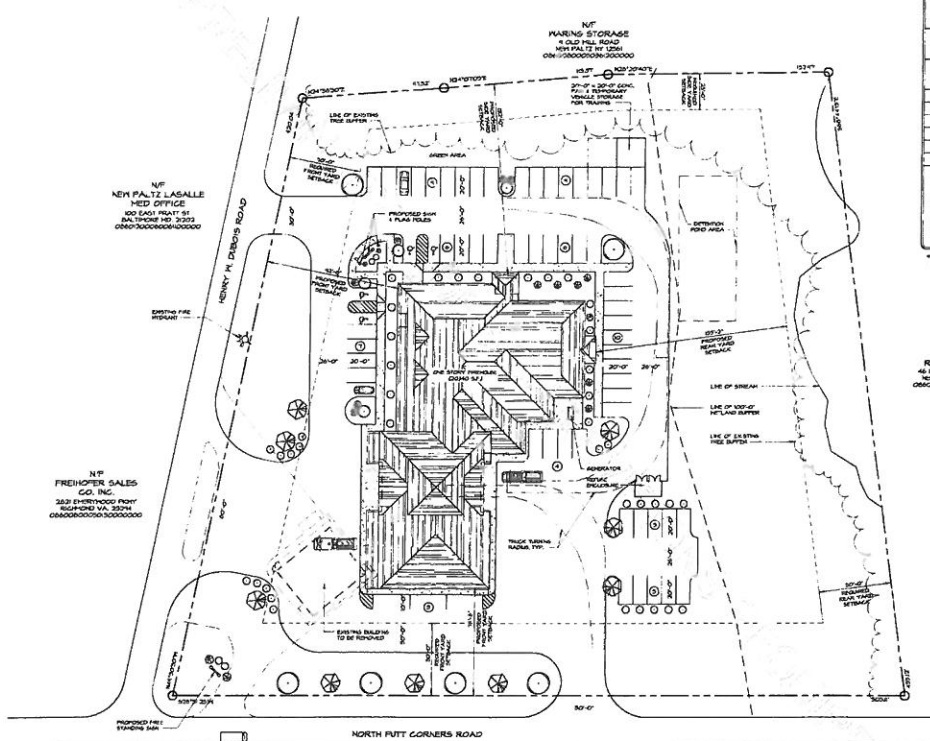

I will have the SEQRA form for you tomorrow as well as the building project description. Attached is the site plan exhibit.

Happy Grant writing!

Regards,
Dave

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Town of New Paltz, NY Town Board (Lead Agency)			
Name of Action or Project: Emergency Services Center			
Project Location (describe, and attach a location map): Corner of Henry Dubois Drive and North Putt Corners Road (County Highway No. 7) in the Town of New Paltz, NY			
Brief Description of Proposed Action: Development of a new 55,000 square feet Emergency Services Center that will house all emergency service providers (Fire, Police and Rescue Squad), all Town municipal offices (excepting the Highway Department and Department of Public Works), the Town Court facilities and the Town Community / Senior Center. Parking for 100 vehicles will be provided as well as site lighting, landscaping, stormwater management facilities and connection to public water and sewer facilities.			
Name of Applicant or Sponsor: Town of New Paltz Town Board		Telephone: (845) 255 - 0604	
		E-Mail: supervisorzimet@townofnewpaltz.org	
Address: One Veterans Way, PO Box 550			
City/PO: New Paltz		State: New York	Zip Code: 12561
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO <input type="checkbox"/>
			YES <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? If Yes, list agency(s) name and permit or approval:			NO <input type="checkbox"/>
			YES <input checked="" type="checkbox"/>
3.a. Total acreage of the site of the proposed action?		_____ 4.21 acres	
b. Total acreage to be physically disturbed?		_____ 3.0 acres	
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		_____ 0.0 acres	
4. Check all land uses that occur on, adjoining and near the proposed action.			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input checked="" type="checkbox"/> Commercial <input checked="" type="checkbox"/> Residential (suburban)			
<input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (specify): _____			
<input type="checkbox"/> Parkland			

18. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)? If Yes, explain purpose and size: _____ _____ A combination of green infrastructure stormwater practices will be utilized to limit the size of the final stormwater retention basin, and the size of this basin is estimated to be less than 0.25 acres. Final design will dictate the basin area required.	NO	YES
	<input type="checkbox"/>	<input checked="" type="checkbox"/>
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: _____ _____	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe: _____ _____	NO	YES
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
I AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE		
Applicant/sponsor name: <u>Town Board of the Town of New Paltz, NY</u> Date: _____		
Signature: _____, Town Supervisor		

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input type="checkbox"/>	<input type="checkbox"/>

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input type="checkbox"/>	<input type="checkbox"/>

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

mCFA GRANT APPLICATION SUMMARY
NEW PALTZ EMERGENCY SERVICES CENTER
(June 15, 2014)

The new Emergency Services Center will be located at the corner of Henry Dubois Drive and North Putt Corners Road in the Town of New Paltz, New York. This 4.21 acre site's location is presently improved with a small auxiliary fire station building, that stores fire equipment and includes a small firefighter ready room, office and equipment storage. This location provides for excellent access for emergency services response to the community as well as being well located nearby primary transportation routes and readily accessible to non-motorized transportation.

Latitude and Longitude are: 41°-44'-46.5"N and 74°-03'- 53.4"W

The new building will combine all municipal services except for the Department of public works and highways. The services included in the new building are: Police, Town Court, the volunteer Fire Department, the Rescue Squad / EMT /ambulance services, the Town Hall offices of the Town Supervisor, Town Clerk, Planning and Zoning, the Building Department and Town administration offices (personnel services and accounting), Town Recreation administrative offices and the Community Center / Senior Center. The preliminary site plan design allows for primary egress access for emergency equipment onto Henry Dubois Drive with secondary access onto North Putt Corners Road (County Route 7). The existing small fire station building will be demolished as part of the project's plans.

The new building will be three stories and a maximum height of 40 feet with access to the upper floors by 2 elevators. The building will have a partial basement that will be used primarily for file records storage (partially climate controlled), secure equipment storage and secure court and police record storage. Gross habitable building area will be 55,000 square feet with 7,500 square feet of non-habitable basement storage space. Geothermal heating and cooling will be provided and the south facing roof will incorporate photovoltaic panels to maximize the building's energy efficiency. Auxiliary heating will be by natural gas which is available at the site. Water and sewer services will be provided through connection to the existing public municipal systems. The building will have a sprinkler system for fire protection and an emergency stand by generator will be provided to serve all the building's functions during power outages and to provide an emergency power supply in support of the new building's function as the Town's Emergency Operations Center during declared states of

emergencies. Stormwater management will be provided with discharge to the perennial stream that is located along the northern border of the property. The facility will be fully ADA accessible and 100 parking spaces will be provided to serve the facility's normal use. Overflow parking that may occasionally be needed for Town Court or large Town meetings will be provided at a nearby existing parking facility by a perpetual lease. Building scheduling of events will minimize the need for the overflow parking use. Suitable landscaping and site lighting will be provided for the new facility.

The first floor will have a gross floor area of 20,000 square feet and include: a foyer / information area, 9 double bays for emergency service vehicles (fire, ambulances and police), Police secure receiving, holding and interrogation areas, an emergency communications center, dispatch center, Town emergency services basic operations' ready rooms and supervisory offices and the Town's Community / Senior Center.

The second floor will have a gross floor area of 20,000 square feet and will consist of the Town Courtroom which will also serve as the primary meeting hall for Town meetings, Town Court, Police, Fire and Rescue administrative offices, training rooms and conference rooms for emergency service personnel, emergency services' gym facilities, locker rooms showers, break rooms / living room / study areas, small kitchens, and 4 two occupant bedroom accommodations for full time rescue squad overnight shift emergency responders use. The Courtroom / Town meeting hall room will accommodate occupancy of 200 persons.

The third floor will have a gross floor area of 15,000 square feet and will primarily consist of Town administrative offices, including offices of the Town Supervisor, Town Clerk, Planning, Zoning, Building Department, Recreation, Personnel and Accounting and will include conference rooms, break rooms and active record storage.

Job creation is estimated to be 50 man-years for the temporary construction jobs and 4 additional full time employees.

Total Project Cost has been preliminarily estimated to be \$15,935,000, broken down as follows:

- | | |
|--|---------------------|
| 1. Estimated construction cost = | \$13,850,000 |
| 2. Indirect soft costs (i.e., design, permitting,
Legal, bonding and grant administration = | <u>\$ 2,085,000</u> |
| TOTAL ESTIMATED PROJECT COST = | \$15,935,000 |
