May 19, 2015

Dear Valued Water Customer,

On your most recent water bill there was a notice that said "Unpaid balance will result in water being shut off 30 days after due date"

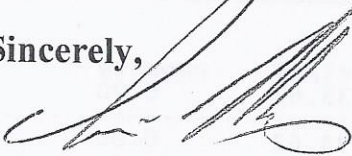

Due to the rising infrastructure expenses and the increases levied by the Village for the cost of water. It is no longer possible for the district to cover the financial burden for past due accounts. In order for the Town to pay the Village for the water usage It is imperative that you pay your bill in a timely manner.

Since this is a policy in our code that is now being enforced we wanted to give you the courtesy of 17 days notice to pay your bill before an interruption of service.

Please remit all payments to the Town Clerks office on or before June 5th, 2015

Thank you for your cooperation.

Sincerely,

Chris Marx

Water Commissioner
