

Hello Mr. Bettez,

I would like to be on the Town Housing Board, maybe called the Housing Smart Community Board.

I own a few properties in town that I rent to students.

I have responsible and respectful ideas to increase housing in town and thereby help keep housing affordable.

I "play well with others." I worked for 25 years as a school social worker. Then for 6 years as a school administrator of special education. I chaired over 1,000 Committee on Special Education meetings where I led in bringing many people with (very) diverse interests to a consensus.

I believe my participation on the board would be an asset to the board and to the Town of New Paltz.

I hope you have a sweet New Year and I appreciate your consideration of this request.

Best Wishes,

Daniel Scherrer
