Karyn,

Please consider this my formal request to apply for a position on the Zoning Board of Appeals board in New Paltz.

I am a resident of New Paltz and have 30 years of residential, and commercial construction experience.

I have worked extensively on small and large scale ground up projects that include; drilling and excavation, foundation, site work, superstructure, and exterior and interior finishing.

My wide variety of knowledge of building techniques would benefit the Planning Board. This experience encompasses historic and traditional restoration, energy conservation, landscaping, and general building.

I have also developed projects and seen them through completion working with funding sources, engineers, architects, municipal agencies, and a multitude of government agencies like the Department of Public Works, EPA, and varied Code Enforcement and Conservation agencies in New York State, locally, and throughout the NorthEast US region.

I look forward to hearing from you and discussing this further.

Best regards,

Jon Decker
