Announcements

Public Input* (see note above)

1. Presentation: Mobile Mental Health: Trish Tuber and Allison Burch
2. Review of New Paltz Police Reform and Reinvention Committee Report Recommendations:
 - a. The NPPD should immediately begin aggregating data based upon race, ethnicity, and language. There is no other means by which we as a community can hold the Department accountable for bias, or laud officers for a lack thereof. This data should be reviewed regularly, no less than once each budget year.
 - b. The New Paltz Police Department should remove the chokehold policy from its continuum use of force policy in accordance with state law. In addition, NPPRRC recommends that carotid restraint be removed from the continuum use of force policy as well. The carotid restraint is a technique used by officers to restrict blood flow to a person’s brain by compressing the sides of the neck where the carotid arteries are located. It is recommended that chokeholds and carotid restraint training materials be removed from training programs in the New Paltz Police Department.
