Meeting commenced, 6:30pm

Director Chuck Bordino and Recreation Committee Member Jeff Salt briefly discussed the Playground project at Field of Dreams. Jeff raised the question of possibly purchasing a residential playground which costs considerably less than commercial units.

Chuck and Jeff agreed to look into differences between units and further acquire quotes from various companies. Jeff also raised the scenario of separate playground components with future additions as time and budget allow. Chuck cited the cost breakdown for individual components far exceeded units that comprised multiple components and created a more Expansive area of space needed for the project.

Chuck concluded the meeting by reiterating the consensus by the Recreation Committee at the last meeting in January that the playground must be installed by volunteer labor to keep the project on budget. Jeff suggested that this be further discussed at the next meeting in March, Chuck concurred.
