The Town of New Paltz Route 299 Gateway Committee is reviewing the Town Comprehensive Plan as it relates to the Exit 18 / Route 299 Gateway area, and will propose revisions to the Plan and the Town's Zoning Code as needed to reflect the community's vision for this important entranceway to the Town and the Village. The Route 299 Gateway area is generally understood to be the section of Route 299 from North/South Putt Corners Road to North/South Ohioville Road and east to the Town line, with its depth to the north and south of Route 299 defined by the boundary of the B-2 Zoning District.
