

County Waste & Recycling
1927 Route 9
Clifton Park, NY 12065

Dear valued customer,

Effective in your November invoice, you may notice a rate increase for services provided. This increase is a recycling processing fee. Due to recent cost increases in the surrounding market area, this type of adjustment is necessary.

In January 2018, China started an Anti-Pollution push and banned any foreign trash and recycling. Before that China would take around 5.6 billion tons of recycling a year, and almost ¾ of that recycling came from the United States. Finding other outlets to properly dispose of recycling has become very expensive, which is why many companies no longer take certain recyclables. County Waste is committed to recycling and ensuring the proper disposal to keep our environment clean.

County Waste is working diligently with your Town and Village to mitigate these expenses and keep this rate adjustment to a minimum.

Your business is important to us and we appreciate your understanding. You can email us county-waste@wasteconnections.com or call us 845-355-4500 with any questions or concerns.

Sincerely,
