Motion: Made by Councilman Barry to open a special town board meeting at 1813

Second: Councilman Torres

All Ayes

Motion: Made by Councilman Barry to accept the agenda

Second: Councilman Torres

All Ayes

Supervisor Paul Hansut, Town of Lloyd – Transfer Station discussion. Supervisor Hansut talks about when their transfer station is open and what they charge. Their permits run by a fiscal year and they end in April. He said they have one part time union employee and they were just approved to hire a junior assistant. They feel having one person there is not safe. They are looking at about a \$30,000 loss for next year. There are numerous fees that are being increased. There is a Governor's incentive for shared services. It seems like in order for this to be considered shared services, New Paltz would have to take over Town of Lloyd's transfer station and Town of Lloyd would have to back out completely. Supervisor Zimet would like them to discuss what they could do at this point to help each other out. Town of Lloyd's transfer station is strictly for garbage and recyclables only. They will be increasing their rates for next year. They are also considering closing another day, and offering New Paltz as an alternative on the days they are closed. New Paltz offers more services than Lloyd does. Our annual fees are \$20 for residents, \$10 for seniors, and \$35 for non-residents. Lloyd will be raising their annual fees to \$35 for residents, \$20 for seniors. Laura from the transfer station says if they get a third of the Town of Lloyd residents, there will be an \$18,000-\$20,000 increase to ship out. She thinks extra labor will be minimal. She believes they will bringing in landfill revenue. She is thinking that a \$10,000 revenue will be made. With the garbage they will not be making any extra money. They will make the revue with the reuse center and the recyclables. Town of Lloyd will be giving the Town of New Paltz \$5 per customer that uses our station. Laura doesn't see a downside to doing this. Supervisor Hansut is unsure how the Town Board will feel now that they will not be getting the shared services incentive. Councilman Barry says he feels if it is not going to hurt the Town of New Paltz, and at the same time help Town of Lloyd get out of the hole, it seems like a good idea. Supervisor Zimet wonders if they can get anything for being under the cap from the freeze. Councilman Torres would like to look at writing in to change the legislation. Councilman Torres will try to get a better handle on the freeze and see what incentives they have regarding shared services.

Town of Lloyd has already scanned their documents for retaining. Town of New Paltz is looking into doing this. Supervisor Hansut suggests they call Dan Barton, he helped Town of Lloyd put their system together.

Supervisor Hansut tells the Board about modules that were used in Town of Lloyd to build a building. They come with the sprinkler system built in, and then you can put siding on it and they look beautiful.

Motion: Made by Councilman Barry to adjourn at 1917

Second: Councilman Logan
